

## **ASSIST<sup>®</sup>**

***Active Shooter and Security Incident Safety Training***

### **Church & Worship Center Violence Prevention Training**

This program is presented by InDev Tactical, a division of InDev Specialists, Inc.

*ASSIST<sup>®</sup>* provides the skills and confidence needed to deal with church violence. It dispels myths and misconceptions and presents simple techniques for surviving an event.

*ASSIST*, is a four hour presentation that provides ministry leaders, security team members, and church volunteers with the knowledge, confidence and skills needed to effectively deal with conflict and violence.

#### **Understanding Church Security**

The first session helps attendees understand the role of security in developing a welcoming but secure environment for your church. It develops an understanding of church security and the myriad of variations and methods that a church can employ.

#### ***“ASSIST” - Active Shooter Training***

InDev's proprietary active shooter training presentation that provides detailed instruction on surviving an active shooter situation, looks at options to consider, and proactive methods of mitigating harm. .

#### **Crisis Management, Aftermath, and Next Steps**

This session focuses on crisis management, damage control, and decision-making. The session reviews issues that must be addressed during, and immediately after, a violent event.

#### **Wrap-up & Next Steps:**

Recommendations on potential follow-up and next steps, and a discussion of needs such as conducting a Rapid Site Assessment (RSA), developing an Emergency Response Plan and establishing a Special Response Team (SRT).
